

ACKNOWLEDGEMENTS

The palliAGED online resource is managed by CareSearch, Flinders University and is funded by the Australian Government Department of Health.

palliAGED was developed to provide evidence, tools, guidance and practice resources about palliative care for older Australians. The information and resources will support all those involved in caring for older Australians approaching the end of their life.

Many individuals have contributed to this project. We would like to acknowledge the valuable expertise and knowledge that they have shared in supporting the development of this online resource. We would like to thank the following members for their contributions to this project:
